Summary

Results-driven **Full Stack Web Developer** skilled in **JavaScript**, **Node.js**, **Express.js**, **React.js**, and **MongoDB**. Experienced in building **RESTful APIs** and developing **scalable web applications**. Proficient in **Agile software development** with a strong background in **UI/UX design**, **software engineering best practices**, and **performance optimization** to deliver high-quality, user-focused solutions.

Skills

Frontend Development

React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, ShadCN

Backend Development

Node.js, Express.js, REST APIs, MongoDB (CRUD operations, Aggregation Framework)

Tools & Technologies

PostMan, AWS SES, Mailtrap, vercel, Visual Studio Code, MongoDB Compass/Atlas, Cloudinary, Google Cobal

Version Control

Git, GitHub

Experience

Exzellent GmbH (Remote) June 2025 - Present
Software Developer Internship Brandenburg, Germany

Developed an **Education Courses Selling Platform** using the **MERN stack**, focusing on backend architecture. Implemented **Google OAuth authentication**, **email verification workflows**, **OTP services with AWS SES**, and **JWT token-based authorization** to ensure secure user management and data protection.

Marvik Solutions Private Limited (on-Site) 1 June 2024 - 31 July 2024
MERN Stack Development Internship Udaipur, Rajasthan, India

Developed a **Paperless Document Handling** System for **Udaipur Army Camp** to **digitize workflows**, **reduce paperwork**, and **enhance efficiency**. Enabled virtual document transfers across terminals, minimizing delays and improving accountability in **daily operations**. Implement **RESTful APIs**, **secure user authentication**, and **role-based access control** for optimized system performance.

Projects

Protask Solution February 2025 - May 2025
🔗 <https://github.com/Anuj-Parihar/protaskssolution>

ProTasksSolution is a **MERN stack platform** that streamlines operations through **outsourcing** and **scalable solutions**. It offers a **user-friendly interface**, **real-time data**, and **secure access** to boost **efficiency**.

CodeSage February 2025
🔗 <https://github.com/Anuj-Parihar/CodeSage>

Built an **AI-driven JavaScript code reviewer** web app using the **MERN stack** that **analyzes** code in **real-time** and **suggests improvements**. The tool streamlines **development** with smart **recommendations** and automated code **quality** checks.

3R-Reduce, Recycle and Rewards December 2024 – February 2025

Developed a **MERN-based waste management** app using **AI/ML** for waste **classification** and blockchain for user rewards. The platform **encourages segregation**, **recycling**, and **efficient** municipal collection.

Education

Vellore Institute of Technology, Bhopal 2024 - Present
Master Of Computer Application (MCA) | CGPA - 8.55

MohanLal Sukhadiya University, Udaipur 2021-2024
Bachelor Of Computer Application (BCA) | CGPA - 8.24
